No. 36

Looking Forward

The more you think about the future, and about Opportunity and Success, the more enthusiastic you become about being a money saver.

If you have mastered the art of saving, you can forecast with reasonable accuracy how much of a factor you will be in the days of opportunity which are drawing near.

"Double your Savings
It CAN be Done"

THE RESULTS OF PROHIBITION

The attempt to force prohibition in the Province of Alberta has produced conditions that enable the bootlegger to flourish in every city, town and hamlet. No place is so small but the bootlegging fraternity finds their activities profitable. Bootleggers have become highly specialized in evading those charged with the responsibility of the enforcement of the Liquor Act. illicit distillers are becoming sufficiently expert in their calling to enable the bootlegger to handle their product. These conditions are known of all men in this Province and must be intolerable to all good citizens. There is just one remedy: take away the bootlegger's customers by voting "D", government control.

—NOTICE—

Commencing September 3rd, I will open up a Boarding House in the Jackson Block. First class rooms, and meals prepared by all white help. A trial will convince you of our excellence.

Mrs. J. Metzger.

PAUL MILLINERY

A complete line of Fall Millinery is on display at Mrs. Peterson's. You are respectfully requested to call and inspect the same.

THE NAVY LEAGUE OF CANADA HELP IT ALONG

Mayor H. W. Chambers has received a communication from the Secretary of the Alberta Division of the Navy League of Canada, and as he considers this a very worthy organization, he desires to put the facts before the people of Didsbury and district.

The Navy League is putting on a special campaign for funds to assist in carrying on the work and pay off the deficit caused by the financial condition of the country last year. A campaign for funds was intended to be put on last year, but owing to the poor financial condition of the country, this was abandoned. However, this year conditions are a little different, and the Central Organization of Canada feels that Alberta should do its part in assisting, particularly as so much was done during the war for our men, and the carrying of our grain etc., overseas. Very few realize or know that over 17,000 men of the Merchant Service alone made the supreme sacrifice in their endeavor to assist the Empire, and left behind them a large number of dependants. The League raised a considerable sum to assist and today are caring for nearly 1,200 orphans—they are to be given an education, and cared for for a period of ten years when they will be able to look after themselves.

Besides the work for these children the League cares for the present day merchant seamen, looks after children when their lives are lost through shipwreck, and owns and operates a number of large institutions in Canadian ports—Halifax, St. John, Sydney, Charlottetown, Vancouver etc., and also assists other institutions in various places. The League also looks after the interests of the boys of our country, through Brigades, summer camps etc.

The work of the League is not a war one, but it is carried on for the men going down to the sea in ships—looking after their interests when they are ashore, providing helpful places for them to visit etc.

Didsbury has helped done very much for the League, and as you are only asked to subscribe the sum of \$5.00 it is hoped that this sum will be assured.

It is proposed to take up a collection on Saturday 22nd and the Mayor calls for volunteers for this work. Will they kindly hand their names in to him as early as possible.

Alternatives—A man can drive a car with one hand, but it's better to have a girl with some initiative—Maclean.

AROUND THE TOWN

Mr. C. Reiber was a business visitor in Calgary last Tuesday.

Mr. Jack had the misfortune to break his arm while cranking his Ford last week.

Arrange now to keep open the dates of the 8, 9 and 10th of October. Chautauques. Further announcements later.

Order early for this year's Christmas Greeting Cards. We have some nice samples here and a card with your name printed on silver that distinctive touch otherwise lacking.

St. Hilde's Chapter Order of the Eastern Star visited Mountain View Chapter No. 1, Okla., last Thursday where they witnessed beautiful Chapter exemplify the Flower service. This was splendidly performed and was well worth travelling a long way to see. It is a beautiful language of flowers. After Chapter was closed a splendid 4th degree was exemplified to the credit of all concerned the usual toasts and vocal performances following. A most enjoyable evening was terminated at 12:30 a. m.

DIDSBURY SIGNED UP 112,000 ACRES IN POOL

SEVEN WITHDRAWALS

Approximately 112,000 acres of wheat were signed by the Alberta Wheat Pool drive representatives in the Didsbury provincial constituency during the recent campaign, according to A. B. Claypool, M. L. A. for Didsbury, who was a visitor in Calgary last night.

Since September 5th, the date on which farmers were released from their contracts if they so desired, there have been only seven withdrawals, and those farmers who withdrew did not hold a bit acreage, Mr. Claypool said. He said that he did not expect many more withdrawals between now and September 22, the last day on which signatures to the pool contract can be withdrawn.

Supporters of the wheat pool worked exceedingly hard and under difficulties during the drive, and considering the limited amount of time available and the season, they are satisfied with the results, Mr. Claypool said.

To Winnipeg Again

H. W. Wood, president of the United Farmers of Alberta and chairman of the provisional board of seven trustees of the Alberta wheat pool; W. J. Jackson, secretary, treasurer, and C. Jensen, board member, left the city last night for Winnipeg for additional conferences on wheat pool problems.

This is the only known result of the two-day conference here of the board of trustees. The board, after two more sessions yesterday, finally ended the conference at 6 o'clock last night. No official statement would be available, and it is not likely that any statement will be heard until the Alberta pool representatives return from Winnipeg. Mr. W. J. Jackson stated.

MISS BELLAMY HAS RAPID SCREEN USE

Miss Bellamy's progress in motion picture studies has been swift and met. In less than eighteen months she has climbed to the top through her clever work in only three roles. Very recently two different

prominent periodicals at different times selected her as the best her on the screen for early studies. She admits she was overwhelmed at this idea, as the whole thing came as a real surprise.

When Miss Bellamy learned the stage and returned into Didsbury she was surprised. Those who know her declare she was the most unassuming, unobtrusive girl they had ever seen. But when she got started on her work and became conversant with what the camera could do,

she became a different person. Her promptness, dramatic propensities and dramatic feeling was regarded as extraordinary. Now she has as tipped her past brilliant record as Jack Pickford's leading lady in his First Allied Producers and Distributors Corporation picture, "Garrison's Finish," coming next Tuesday and Wednesday to the Opera House, and in which she has taken several forward steps which seem to insure her all the more of the stellar cast with what the camera could do, no artist would quarrel.

WEDNESDAY, SEPTEMBER 19th.

**IT MUST BE TOUGH
TO BE A PRINCE**

The Prince of Wales, travelling as Lord Renfrew has arrived in Alberta and is staying at his ranch near High River. His visit is entirely unofficial and there are to be no formal functions.

We often wonder how the Prince feels about all the newspaper propaganda that is given to him. The Prince, according to all reports, is a soldier, a sportsman, and above all, a gentleman, and due respect and report should be given him as such. But the columns of space given over to many trivialities must surely seem a lot of rot to him as well as to a great majority of people. The daily newspapers these days are full of it. One bold American woman had the privilege of dancing with him on his way out to Alberta and succeeded

in eliciting some interesting comment of an intimate nature, such as that he was not engaged and the admission that he wore braces and danced well. These were made into columns in U. S. papers. In our own province if he lifts a stick on his ranch, speaks to the cook or shoots a duck it all comes out in big headlines in the next day's papers. Verily, it must be exasperating to be a Prince.

THE SHOOTING SEASON

There is an erroneous impression abroad that the Provincial Government has changed all dates for opening of the shooting season.

The only date which has been changed is that for opening of the duck season, which was moved forward from September 1st to September 15th.

The open season for partridge is as it has always been, the entire month of October, the only change in this respect being an order prohibiting shooting of partridge north of Battle River. The open season for prairie chicken is unchanged, being from October 15, to October 31.

THRESHING LICENSES

Those threshers in the province who have not yet received their licenses for the year, should send in applications at once to the Department of Agriculture at Edmonton. It is imperative that all threshers be licensed, and those who do not display their licenses when asked to do so by the authorities are liable to prosecution.

**ALBERTA MEMBER RAILWAY
COMMISSION**

The appointment has been announced of the Railway Officer at Edmonton, to the vacancy in the Railway Commissioner of Canada, created by the death of Dr. J. G. Rutherford. Mr. Oliver is a veteran newspaperman of Alberta and was formerly Minister of the Interior.

By mistake picking up the overcoat of a man he had seen apparently murdered, and finding in the pocket a marriage license bearing the name of the "one girl in the world" was the situation selected by Louis Tracy for one of the best romances he ever wrote in the stage play "One Wonderful Night." Universal has filmed the play which brings Herbert Rawlinson as the star in the Opera House next Friday and Saturday.

HEAVY YIELDS OF WHEAT

Reports of some heavy yields of wheat are coming in from country points. In the Raymond district one farmer has an average of 53 bushels on his wheat acreage, and at Magrath another farmer averaged 51 bushels from his 160 acres. At Lacombe a report of 52 bushels from one farm is reported. Threshing will not be general for another week or ten days, however.

CABINS IN THE CLOUDS

Upper left shows the "Beehive" on the shores of Lake Agassiz, near Lake Louise, in the Canadian Rockies. At the right is another place where one might find one's retreat from a busy world.

To climb 6,875 feet above Lake Louise and to enjoy a cup of tea in the delightful surroundings is one of the attractions offered visitors to Lake Louise, Alta. Tea houses on mountain peaks were unheard of a few years ago, but today there are at least a dozen of them situated in the Canadian Rockies.

Two of the most picturesque are the "Beehive" on the shores of Lake Agassiz, about two miles and a half from the Chateau and the other a rustic log cabin on the top of Mount Fairview. Waking and many excursions over the mountains in the vicinity of this picturesque lake are among the popular pastimes of visitors from all parts of the globe to "the lakes in the clouds."

From the "Beehive" one can get a perfect view of Mirror Lake and Lake Louise, which, with Lake Agassiz, are known as "the lakes in the clouds." This tiny little tea room is owned by Miss B. Dodd and operated during the season by Miss

Goddard. Its furnishings are quaint and rustic.

The foodstuffs are delivered every morning by pack pony from the Chateau Lake Louise—even fuel for the cook stoves is transported in this way.

In addition to the tea room there is an attractive assortment of antiques from various parts of the globe, collected during the winter months by Mrs. Dodd, who manages the place.

There are many surprises of scenic beauty along the trail to the tea room, but perhaps the most interesting fact is that one can obtain a delicious cup of English tea, with equally delicious home cooking with in sight and sound of whistling marionettes and squirrels and chipmunks that leap from bough to bough, and often within sight of friendly bears who come close to the kitchen door in search of tasty food.

One of the most interesting trips at Lake Louise is by a narrow, wind-

ing path on Mount Fairview to Saddleback Tea Room and Rest House, which is 2,500 feet higher than the Chateau. This quaint little log cabin, situated on Mount Fairview, overlooks Saddleback Mountain, so called because of its rock formation being similar to a saddle. It takes almost two hours by pony to make the trip over a steep zigzag trail, from which can be seen winding streams and rushing brooks thousands of feet below.

This tea room and rest house, the "Redoubt," is owned by Miss Dodd and operated by Miss A. E. Whymann. Its surroundings are most artistic and restful. The view of Paradise Valley and Mount Temple from its tea house is one of the finest in the Rockies.

Daily supplies of food and fuel are transported by pack ponies from the Chateau to serve approximately 25 guests a day, who are well rewarded for their journey to the "highest tea house in Canada."

Wheat Pool In Saskatchewan Will Have Wide Powers

Regime—Wider powers than covered in the contract are possible for the Saskatchewan wheat pool in the memorandum of association which was approved by the wheat pool committee after an entire evening had been spent discussing the various features contained in the draft document.

The memorandum of association provides for a capitalization of \$100,000, divided into 10,000 shares of one dollar each, and the registered office of the company is to be located in Regina.

Among other things the memorandum of association gives the pool power to manufacture, buy and sell flour and other food products (except flour) from grain and cereals; power to acquire or build elevators, mills, warehouses, factories, plants, offices and houses and to purchase, build, hire or charter steamships and other vessels. The memorandum also contains provisions regarding the pool to have and invest money and to take over other companies or enter into agreements with other companies.

A clause is included giving the pool the right to join forces with other grain marketing organizations in other provinces.

The memorandum gives power "to provide for the government and control of the company by delegates to be appointed by the shareholders or the company in such as may be decided upon and particularly to provide for the postal system of electing such delegates."

Other clauses also provide "to provide for the appointment of directors of the company by districts" and to provide for the recall of directors and for the taking of resolutions of the shareholders "particularly by postal ballot or local meeting or both."

In reply to a telegram from W. R. Wood, of the C.N.M., asking if the Saskatchewan wheat pool would be willing to cooperate with Manitoba in a joint selling agency, A. J. McPhail wired the following:

"Principle of international selling agency of more importance than percentage of Manitoba's crop signed up for pool. Saskatchewan will welcome Manitoba's cooperation in establishing selling agency for the three provinces."

Terminal Elevators Want Rates Raised

Request of Operators at Lake Head Will Be Considered

Winnipeg—An increase of one-half cent per bushel on the elevator charges on mixed grains was asked for by the terminal elevator operators at the head of the lakes when their representative appeared before a committee of the Board of Grain Commissioners here.

Handling charges on mixed grains, receiving, elevating, storing, smelting and insurance against fire for the first 15 days is at present two cents a bushel. Leslie Boyd, K.C., chairman, said the board would consider the application. There were no representations made with regard to other elevator charges.

Telegraph Slower Than Mail

Degradation in Mail Increased Business on German Lines

Berlin—Telegraphic communications in Germany have been swamped ever since the mail began to slow down again. Since January of this year the amount of business handled by the German telegraphic lines has been greater than of the corresponding period of last year.

Telegrams now travel more slowly in Germany than letters and the telegraph administration has appealed to the public to curtail its business and use the wires as sparingly as possible.

Will Scrap Warships

Tokyo—Official announcement was made that the scrapping of warships in accordance with the Washington treaty, ratification of which has just been exchanged by the signatory powers, would be carried out immediately.

Ship Butter Via Panama

Several Thousand Boxes of Alberta and Saskatchewan Product Going to Britain

Vancouver—A trial shipment of several thousand boxes of Alberta and Saskatchewan butter will be exported to the United Kingdom in a few days by way of British Columbia and the Panama Canal.

Arrangements for the shipment were completed by E. J. Lullsen, General Manager of the Central Provinces, and President of the Alberta Dairy-men's and Manufacturers' Association. The route to Liverpool, via the Panama Canal, has been cut in half, from \$3 to \$1.50 a hundred pounds via the canal, \$1.75 cheaper than by the Montreal route, it is stated.

If the trial shipment is successful, it is expected the transportation of butter from the province through British Columbia will develop into large proportions.

Geddes Will Return If Possible

London—The secretary of Sir Auckland Geddes, British Ambassador to the United States, who has been in England for two months, stated that Sir Auckland only intended to return to his post at Washington unless the state of his health prevents.

Protest Against Report That British Harvesters Were Left Stranded

Reparations Problem

British Government in No Mood to Break Further Delay

London—London in August is comparatively dead, politically and diplomatically. Hence, it is difficult to gather any official opinion on the last note of M. Poincare, the French Premier, with regard to the German situation. A point much discussed in London is whether the note will lead to another allied conference in Paris or elsewhere, in an endeavor finally to settle the reparations problem.

The general view here is that this was one of the principal objects M. Poincare was aiming at in his latest exposition of France's policy, but in this connection it was pointed out that Premier Baldwin, in recent statements in Parliament and elsewhere, made the assertion that the British Government was not in a mood for much further delay in settling the issue.

Turkey Will Ratify Lausanne Treaty

Grand National Assembly at Ankara Is Discussing Terms

Constantinople—Debate on ratification of the Lausanne peace treaty is proceeding in the Turkish Grand National Assembly at Ankara and while the end of the discussion is not in sight, ratification of the pact is regarded as certain.

In favoring endorsement of the work of the negotiators at Lausanne, Yusuf Kemal Bey, President of the commission of foreign affairs, referred to the treaty as a monument of the new Turkey. He declared it was entirely due to the works of Mustafa Kemal Pasha.

Arab University in Jerusalem

Jerusalem—An Arab university will be founded in Jerusalem. The patriarch Barthelemy is heading the movement for the establishment of the school, which will use both English and Arab tongues for instruction. Preparatory classes are commenced to begin this year.

Winnipeg—An indignant protest

against the published reports that British harvesters were being left stranded and jobless in Western Canada was voiced here by Major L. F. Howard, Superintendent of Immigration in Western Canada, who said he considered the reports that British harvest workers had been "thrust" to Canada under false pretenses and left jobless, to be mischievous, misleading, inaccurate, and liable to do incalculable harm, as such reports would no doubt be reproduced in British papers and would be a "black eye for Canada."

"The reports are liable to interfere seriously with the regular immigration to this country and render it impossible to secure harvest help from Great Britain should their services be required again," Major Howard told the Canadian Press.

"Probably there were a few British harvesters stranded temporarily—just as there have been some stranded here—but they are at work now if they want to be," declared William Curran, Superintendent of the Calgary Labor Office, and in charge of Alberta harvest employment here, who, along with the Saskatchewan representative, said reports that the men were stranded and without jobs were without foundation. According to the Alberta and Saskatchewan officials, 8,000 men still are needed. They declared jobs are waiting for them, regardless of previous experience and all other considerations except their ability to stand the test of hard work.

"As for experience, being requisite to a job, I don't believe it," said Mr. Curran. Thousands of men take on the harvest for the first time every year, and thousands of them make good at it. Of course, there are failures in every lot."

Collins' Memory Honored

Military Parade in Dublin Nearly Ten Miles Long

Dublin—The anniversary of the death of Michael Collins was observed with military displays in Dublin, Cork, Waterford and other cities. The parade in Dublin was the greatest military spectacle ever seen here. All branches of the services were represented in a line extending nearly ten miles.

When the head of the procession passed the cenotaph, Miss Kitty Kiernan, to whom the late leader was betrothed, placed a wreath on the tomb.

Artists Demand Daily Pay

Fluctuation in Exchange Makes Big Difference in Salary

London—Singers and actors in the countries affected by the slump in exchange have adopted a new method of collecting their salaries. The artists now demand that they be paid at the conclusion of each day's work, and at the rate of exchange paid for each day.

The artists have refused to sign contracts except on this basis as they claim that the fluctuation of the exchange makes their salary practically nothing at the end of the month.

Canadian Dairymen Need Better Methods

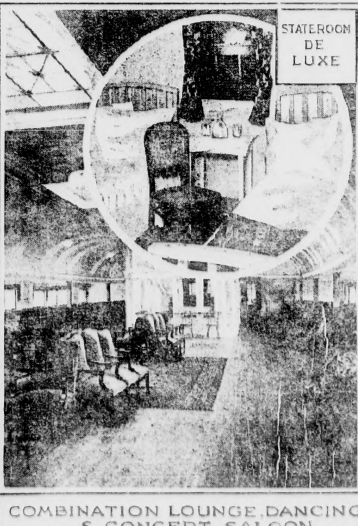

Have Been Competition in New Zealand and Australia

Ottawa—A strong warning to Canadian dairymen of the need of better methods to meet the competition of New Zealand and Australian cheese and butter is given by J. A. Riddick, Dairy and Cold Storage Commissioner of the Dominion, in a bulletin just issued by him as a result of his recent visit to the Antipodes to study the dairy industry there.

San Francisco—San Francisco moved nearly four days' travel nearer to New York through the success of the air mail service's first test of night flying. Difference in Salary. Pilot C. K. Vane brought more than 400 pounds of mail from eastern points here, 24 hours and 22 minutes after the first batch of it had left Long Island.

Floating Palace on the St. Lawrence

THE PALATIAL S.S. RICHELIEU, CS.1

COMBINATION LOUNGE, DANCING & CONCERT SALOON

During the past the Canadian Steamship Lines have always been the pioneers in placing at the disposal of the public potential river steamers, which have provided passengers with all the comforts that it was possible to obtain aboard ships. The introduction of the S.S. Richelieu into the service, however, has outclassed any previous effort on the part of the company in this direction. The S.S. Richelieu is well named. It is a great, handsome and proud name to the history of France, and the company is

merely perpetuating its greatness in the river steamer which bears Cardinal Richelieu's name. The vessel is not only great, but palatial, and its magnificent reflects credit on its builders, especially when considering that it is the work of Canadians. It is undoubtedly the last word in deluxe construction, and was built at Lunenburg by the Pacific Shipbuilding Company. The Richelieu is constructed along lines for the comfort of its passengers, inasmuch as the staterooms and social rooms are entirely separate from the sleeping accommodation, so that the early bedtime brings no severe test without fear of being disturbed by the joviality of their fellow travelers. Oil burner engines have been introduced, which is another step in the direction of advancement, and insure a maximum of cleanliness. Her dimensions are: Length over all, 322 feet; beam over gunwale, 54 feet; molded depth, 27 ft. 6 in.; steam is supplied by six Scotch cylinders triple expansion type and driving 450 horsepower.

Read This

An enthusiastic Prohibition Committee meeting was held on Tuesday evening, September 10th, in the Zion Evangelical Church, Didsbury. It was definitely decided to make a thorough, systematic canvass of the whole community in a week. The several educational work this committee was interested in the addition of the names of several in disreputable houses, men and others, who have expressed their intention to vote and work for Clause "A". With such business men know that every legitimate business prosper under Prohibition. The only business that profits by Government control and similar systems like that proposed by Clause "D", is the booze business, and the only business that flourishing is the boot-licking business. Plans are under way to have several prominent speakers address public meetings here in October.

The Morning Alberta in an editorial last week hit the nail on the head in the style as follows—

A BASE APPEAL

R. A. Larkins, the chief organizer of the Moderation League, made the point at the public meeting of September 10th that the large number of

schools in Alberta were closed because of prohibition. It is not surprising that even at a public meeting in opposition to prohibition, such a rash, unfair, and untrue statement was immediately challenged. It is surprising that any person would make such an assertion.

The schools are maintained in the province, principally by the direct taxes of the school districts. This is supplemented by certain grants from the province. The liquor licenses in the days before prohibition were the revenue of the province and no portion of them went to the school districts.

The schools which have been forced to close in the last twelve months were in the remote districts. They were not closed because the provincial government failed to provide the usual grant. The grants to schools by the Alberta government are more generous than similar grants of any other province even though there was a slight reduction at the last session of the legislature. The grants kept on coming through, as usual but that did not keep the schools going.

The schools which shut up because of a dearth of funds, were forced to close because the ratepayers in the district were financially exhausted. Was that financial exhaustion caused because the ratepayers were under prohibition? It was because these

certain districts experienced a succession of bad harvests such as they had never experienced before. That is why the schools are closed, and for any person to say that prohibition had anything to do with the closing, is to insult the intelligence of the people of this province.

It would be near enough to the truth to say that but for prohibition and the economies which followed it, hundreds of districts in existence today would not otherwise have been in existence.

Some of the Darker Moderationists are making free with these wild, uncertain and untruthful statements and it is about time they were called to task and forced to prove their assertions.

Here is another example. The moderationists say that there will be less drinking under prohibition, something that no person can believe. But then they say on the other hand that under movement control the province will have millions for the schools, in millions for the highways, millions for agriculture, millions for reduction in municipal taxation.

And where will the millions come from?

Out of the profits of liquor. But how can there be any profits of millions unless the province sells money, many, many millions?

The Alberta does not deny, and never has, that there are two sides to the question of prohibition and government sale of liquor. But it cannot say the same thing of the argument that the state should go in to the liquor business in order to make money. That is a morbid, selfish, foul position to take. It is humiliating.

That is an unworthy appeal and the better members of the Moderation league would be well advised if they abandoned it.

Fruit Week At Cressman's

Maple Leaf rolled, oats Maple Leaf oatmeal, Maple Leaf wheatlet, Maple Leaf Cornmeal and Maple Leaf flour made by the Maple Leaf Milling Company of Toronto. This flour has a money back guarantee printed on each sack, and the majority of Eastern and Western bakers use this flour that is why we all like to eat bread made at our local bakers. Try a sack, \$3.70 per 100 lbs.

Not Special Just Our Regular Prices
Choice quality corn and tomatoes, 2 for 35c, 6 for \$1.00
Pink Salmon 15c per tin, 7 for \$1.00
Bulk tea 50c per lb., 3 lbs. \$1.40
Bulk tea 65c lb., 2 lbs. \$1.20
Coffee, none better 3 lbs. \$1.00
Golden West soap per box 25c
Pickling vinegar, full strength per gal. 90c

JUST RECEIVED A CAR OF CATTLE & DAIRY SALT

Our floor Space is limited, therefore we cannot afford to waste valuable room stocking inferior brands. We carry only the best in meats, fruits and Groceries.
